

Public Works provides many of the essential services that add to the quality of life for our residents, visitors, and businesses. The Department uses dozens of pieces of highway and construction equipment as well as other tools, to make needed repairs in the Town. We also maintain Town vehicles in our garage, Town streets, and clear up storm debris.

The Department assists with implementation of city infrastructure projects within the community.

Public Works consists of Water, Sewer, Garage, Leaf & Limb, Public Buildings, Sanitation, Stormwater, and Streets.
